# ABOUT US

---

It is our vision that every individual whom we can reach out to, will come to understand the purpose for which he/she was created, and will have the tools and platform to develop his/her potential in a scientific and holistic way.

# PROBLEM STATEMENT

## CHALLENGES IN LEARNING ENGLISH

- Emphasis on theory over practice;
- Low exposure to the language;
- Low quality text-books;
- Teaching quality not up to the standard.

## CHALLENGES IN SCHOOLS

- Lack of creativity learning due to:
  - Teachers rather push students to reach prestigious universities;
  - Over-emphasis on memorization in high school;
  - Rarely spend time on class discussions, presentations or experiments;
- Teachers don't focus on a student's career/future goals;
- No holistic education.

## OTHER CHALLENGES

- Students are taught to be competitive, not cooperative;
- Students receive lots of pressure but are not taught how to deal with it.
